.NET DEVELOPER

4+ Years of Experience

SUMMARY

- .NET Developer with more than 4 years of experience in developing scalable .NET Core applications using C#, REST APIs, Entity Framework Core, and Microservices Architecture.
- Strong expertise in OOPs, SOLID principles, and design patterns to build maintainable and efficient applications.
- Proficient in working with SQL Server and Entity Framework Core for optimized data management.
- Experience with DevOps tools like Azure DevOps, CI/CD pipelines and some cloud services.
- Experienced in Agile/Scrum methodologies, leading sprint ceremonies in the absence of the Scrum Master.

AREAS OF EXPERTISE

- **Programming:** C#, ASP.NET MVC, ASP.NET Core, Rest API, LINQ
- **Database:** SQL Server, Entity Framework, T-SQL
- **Frontend:** AngularJS, HTML5, CSS3, JavaScript
- **Reporting:** SSRS, RDL, Power BI Report Builder
- **Testing & Code Quality:** Unit Testing, Integration Testing, Static Code Analysis
- **Devops:** Azure Devops

EXPERIENCE

1. Softop Solutions Pvt Ltd.

.NET Developer *June 2022 – Present*

- Developed and maintained web applications using C#, ASP.NET MVC, ASP.NET, and SQL Server for various projects.
- Designed and implemented Rest APIs for seamless data integration between the school ERP system and mobile applications.
- Built and customized web-based ERP modules using ASP.NET MVC architecture, ensuring modular and maintainable code structure.
- Developed and customized reports using SSRS, RDL, and Power BI Report Builder to provide dynamic reporting solutions.
- Implemented unit testing and code reviews (PR reviews), improving code quality and reducing bugs by 20%.
- Worked in an Agile environment, participating in sprint planning, daily stand-ups, and code reviews.
- Optimized SQL queries and stored procedures, reducing database response times by 40%.
- Collaborated with cross-functional teams, including UI/UX designers and backend developers, to deliver high-quality solutions.

Projects:

- School ERP System

  Technologies Used: C#, ASP.NET MVC, Web API, SQL Server, Entity Framework, SSRS, RDL

  Designed and developed a comprehensive school ERP system, including modules for student information management, attendance tracking, fee management, and reporting. Integrated with third-party services for payment processing and notifications. The system followed the MVC architecture for better code management and scalability.

- Mobile App for School Management

  Technologies Used: C#, ASP.NET MVC, Web API, SQL Server, JSON, AngularJS

  Developed APIs for mobile app integration, allowing parents and students to access real-time data on attendance, grades, schedules, and notifications through a user-friendly mobile interface.

- Power BI Reporting for School Analytics

  Technologies Used: Power BI Report Builder, SQL Server, SSRS

  Developed Power BI reports and dashboards to visualize key metrics for school administrators, including student performance trends, financial data, and staff management reports.

EDUCATION

- Master of Computer Application (MCA)
  Jain University, Kochi (Online) Ongoing

- Bachelor of Science (BSc) in Computer Science
  ACKHMICA College, Thozhiyoor, Thrissur, Kerala. March 2022
  Calicut University.

- Higher Secondary
  GRSRVHSS, Velur, Thrissur, Kerala March 2019
  Kerala state Board

SOFT SKILLS

- Problem-Solving: Proven ability to analyze complex technical issues and deliver effective solutions.
- Collaboration: Strong team player with experience in working seamlessly across cross-functional teams.
- Adaptability: Quick learner, adept at picking up new technologies and methodologies to meet project needs.
- Attention to Detail: Focused on delivering high-quality, bug-free code with precision and care.
- Time Management: Skilled at balancing multiple projects while meeting tight deadlines efficiently.
- Communication skills: Strong communication skill in English.
